Attn: Mayor Greg Vaughn

Re: Letter of Engagement
For Engineering Assistance with the Evaluation of the
Failing Curb/Wall on Henry Clay Street
Harpers Ferry, WV

Dear Mayor Vaughn:

As was discussed during Mr. Richard Klein's visit to the site on Tuesday March 25, 2025, it is our initial opinion that Alpha's structural engineering group should visit Harper's Ferry and do a more thorough evaluation of the failing wall. Based on their findings, we can then prepare a detailed proposal for engineering work to replace the curb/wall with a current code compliant structure. The anticipated initial scope includes a field inspection with the Owner's Representative; interim report to Harper's Ferry; preparation of a scope of work for detailed engineering and the preparation of a detailed engineering cost proposal. The estimated fee for this scope is \$4,350. Thank you for providing Alpha Associates with this opportunity to work again with the Corporation of Harper's Ferry.

As the actual Scope of the Work may change, we propose to do this work on an hourly basis, based on the following hourly rates:

1. Project Engineer - \$230/hour
2. Sr. Principal - \$200/hour
3. Survey Party Crew Chief - \$82/hour
4. Administrative Assistant - \$81/hour
5. 2-man Survey Crew - \$154/hour

Invoices will be issued for the actual number of hours spent on the work. Miscellaneous operating expenses will be billed at 1.15 times ALPHA's cost. Re: Letter of Engagement
For Engineering Assistance with the Evaluation of the
Resurfacing of Boundary Street
Harpers Ferry, WV

Dear Mayor Vaughn:

As was discussed during Mr. Richard Klein's visit to the site on Tuesday March 25, 2025, the surface of Boundary Street, between Washington and Filmore Streets (which is believed by the City to be all gravel), is in disrepair. There are also issues with the drainage of the street, as well as drainage across the street at its low point. Due to the historic nature of Boundary Street, the City has directed that asphalt paving is not an option. It is further noted that according to the City Map, the Boundary Street Right-of-way is 30' and any improvements should be fit into the existing R/W, if at all possible.

The Initial Scope of Work shall be a Preliminary Engineering Report that provides solutions for the drainage problems and an evaluation of potential options for repairs to the surface of the street. The Preliminary Report shall also include an "order of magnitude" construction cost estimate, as well as the preparation of a scope of work and engineering cost proposal for detailed engineering plans for the construction documents. The estimated fee for this initial scope is \$9,500. Thank you for providing Alpha Associates with this opportunity to work again with the Corporation of Harper's Ferry. In addition to Alpha's initial work, the City will use their equipment and manpower to look for a drainage pipe at the low spot in the road, which is the natural drainage location for a considerable area of land.

As the initial Scope of the Work may change, we propose to do this work on an hourly basis, based on the following hourly rates:

1. Project Engineer - \$230/hour
2. Sr. Principal - \$200/hour
3. Survey Party Crew Chief - \$82/hour
4. Administrative Assistant - \$81/hour
5. 2-man Survey Crew - \$154/hour

Invoices will be issued for the actual number of hours spent on the work. Miscellaneous operating expenses will be billed at 1.15 times ALPHA's cost. Invoices will be issued every four weeks and are due and payable within 15 days. Interest will be charged at 1.5 % per month for all outstanding invoices. Major credit cards are accepted.

If this proposal is acceptable, please have this Letter of Engagement executed below. Thank you again for this opportunity.

Sincerely,
