To:Pam Knight <pknight@harpersferrywv.us>;Christian Pechuekonis <cpechuekonis@harpersferrywv.us>;Kevin Carden <kevin.carden@harpersferrywv.us>

Cc:Wayne Bishop <wbishop@harpersferrywv.us>;Ed Wheelless <ed.wheelless@harpersferrywv.us>;landmarks <landmarks@harpersferrywv.us>;dsbrg@frontiernet.net <dsbrg@frontiernet.net>

I'd like to review the structural report and meeting audio/minutes that the Harpers Ferry Historic Landmarks Commission based this requirement on:

*HARPERS FERRY HISTORIC DISTRICT  
INVENTORY OF CONTRIBUTING RESOURCES  
06/12/2017*

*400 East Ridge Street*

*Hilltop House. Stucco and rubble exterior, slate roof, stone foundation. Three and a half stories. Hipped slate roof. Very irregular plan on several levels with different styles and materials. Three she dormers on the façade, polygonal turret, square columns on veranda. Heavy lintels over doors and windows. Six/six double hung sash. Structural weakness requires demolition of this Harpers Ferry icon.*

Historic Landmarks Commission public documents from May 2014-July 2019 are not available online.

I can pick up a copy or review the structural report, minutes, and audio files in person, or they can be uploaded to my dropbox here (large files accepted): <https://www.dropbox.com/request/L6ZRS2smJnb10nNCCDWA>

Please share a copy of my request with HLC members who do not have emails noted on the Town website (Hammer/Sherry).

Thank you,  
Midge
