I'd like to review the Mary Oehrlein email exchange regarding the danger of the Hill Top Hotel structure referenced by BZA alt member Rob Case during the March 16, 2021, BZA meeting. Rob Case stated that he had the email thread available and would share it with BZA and HLC members, and that it was also on a hard drive at Town Hall. The document should be available to the public. While I'm available to review the document in person at Town Hall or pay for a printed copy, I'm requesting the electronic version of the email thread that is or was made available to BZA and HLC members.

Thank you,
Midge
